Art Lesson Plan

Imaginative/Abstract NeoPopRealism ink pen / pattern drawing: Chess Board

=====

INFORMATION for DUMMIES from Nadia Russ [<http://nadiaruss.com/>] :

NeoPopRealism has nothing in common with the **Pop Art** and/or **Neo-pop** art styles and cannot be categorized as **Pop Art** and/or **Neo-pop**. Read *Wikipedia's* articles and see (compare) it yourself:

- **Pop Art** [http://en.wikipedia.org/wiki/Pop_art] (created by Andy Warhol+) : http://en.wikipedia.org/wiki/Pop_art [http://en.wikipedia.org/wiki/Pop_art]

NeoPopRealism is Antipode to Pop Art and Neo-pop.

=====

Grades: high school, adaptable all grades

فن الرسم ,

Duration: lesson may be carried over to another day(s).

This imagination/abstract lesson plan employs four concepts: contextual information and research, questioning, reflection, and artwork-making.

Goal:

This lesson plan is designed to develop imaginative thinking and creative actions, to lead students to innovative results and prepare for greater in-depth learning in different subject areas. After viewing, analyzing and executing the imaginative work of art, the goal is to lead students to a synthesis that helps acquire a deeper understanding. Support imaginative learning in classroom, participate in the learning.

Objectives:

Students will

- use imagination to create the NeoPopRealism ink pen/pattern drawings/squares on paper 8"x11"
- exercise/prepare yourself to draw the squares/designs on the thick cardboard, creating a chess board
- develop measuring/estimation skills
- represent self through symbols and images
- create from the thick piece of cardboard the custom chess board with NeoPopRealism ink pen pattern drawings/ squares (instead of just dark squares)
- spray the surface of the board with the clear varnish, completing the work.

ATTN Art Teachers: Please always use a term 'NeoPopRealism' or 'Neopoprealism' when you teach this art style, not "neo-pop realism" or "neo pop realism." A term NeoPopRealism is to describe art style created by Nadia Russ. All other terms-variations are created by unprofessional people, not related to visual arts who just playing with words. Please be professional!

Materials:

- the thick piece of white cardboard (square shape) for creating a chess board (can be different size)
- white drawing paper 8.5"x11"
- black thin ink pen 0.7 mm (not marker)
- clear varnish spray for paper

The Procedure:

Day 1.

- Explain (or remind if students already familiar) the concept of the NeoPopRealism ink pen/ pattern drawing.
- Draw the lines inside of each square that create sections. Then, fill these sections with different repetitive patterns (see illustrations below) . Demonstrate how different types of repetitive patterns and line's turns can change image's character.
- When you/students draw the line and patterns, you/they use imagination, it is unconscious process. This drawing process is meditative.
- You teach students not to copy but create new imaginative compositions and new imaginative patterns

combinations.

Offered below drawings are not to copy them, but to examine them and to learn the creative process step-by-step. Copying kills the imagination. Never copy other drawings, however students can draw texture, looking at the nature or the objects they see around, in the real life.

Regularly, when you draw your ink pen/ patterns drawings-abstracts, avoid using the square shape paper because the square is limiting you, adding the heavy restrictions as if you were putting your creativity into a "prison" of a space. The square is limiting your imagination and potentials to create the versatile images, expressing yourself the best ways you can. Choose the rectangular size of paper, it gives you an opportunity to be unlimited and unique in your fantasy and imagination without any restrictions from outside.

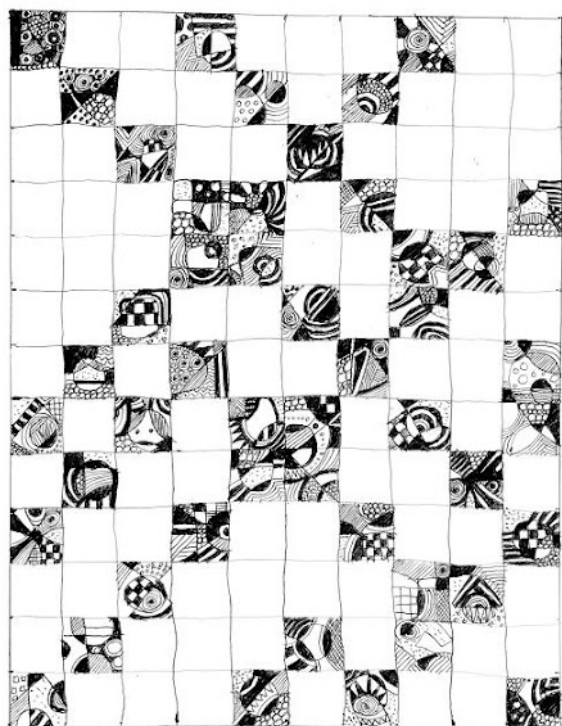

This particular project - "Chess Board" - uses the squares only as the parts of the bigger arts/crafts project. However, to draw imaginative artwork, choose the rectangular shape of paper.

Teach students to create many different and unique abstract images using imagination, that will be combined together into one image.

Explain that often the use of same and simple repetitive patterns results in absolutely different images. (See enlarged visual instructions at <http://neopoprealismartlessonplans.blogspot.com> [<http://neopoprealismartlessonplans.blogspot.com/>])

-Have students divide the 8.5"x11" piece of paper into small squares/sections as shown on the illustrations below.

-Have students fill some sections with unique designs. Make sure students fill each square with different designs, using their imagination, without copying previous or other people's designs.

Abstract in visual arts refers to an object or image which has been distilled from the real world. Artwork that reshapes the natural world for expressive purposes is called abstract; that which derives from, but does not imitate a recognizable subject is called nonobjective abstraction. In the 20th century the trend toward abstraction coincided with advances in science, technology, and changes in urban life, eventually reflecting an interest in psychoanalytic theory. Later still, abstraction was manifest in more purely formal terms, such as freedom from objective context, and a reduction of form to basic geometric designs. In 1989, Nadia Russ created new style of visual arts and NeoPopRealism abstract way of ink pen drawing. This NeoPopRealism abstract ink pen/ pattern drawing style is created through combination of seemed chaotically appeared different patterns' sections. However, this "chaos" turns into the harmonic abstracts.

Day 2

- Explain students what is the Chess game, its brief history (see below).
- Have students measure and divide the thick cardboard into 64 same size squares, as if it would be the chess board.
- Have student fill 32 squares with different repetitive patterns/designs (examine illustration below), read at <http://neopoprealismartlessonplans.blogspot.com/2012/11/neopoprealism-abstract-neowhimsies-gr-6.html> [<http://neopoprealismartlessonplans.blogspot.com/2012/11/neopoprealism-abstract-neowhimsies-gr-6.html>].
- Have students spray the surface with a clear vanish. It has to dry before students can play the chess. Chess' figures students can use from the old chess they have at home. [<http://neopoprealismartlessonplans.blogspot.com/>]
- Compare the students' chess boards, display the best work. Discuss results from artistic point of view.
- Give information where students can learn this game (find online information about local chess clubs).

About NeoPopRealism ink pen/ pattern drawing style:

This drawing style - NeoPopRealism - Nadia Russ created in 1989. She loves to draw faces, and this kind of abstract ink pen/ patterns drawings (combinations of different patterns in sections) she always included and includes now in her ink artworks' backgrounds since 1989. Read more about NeoPopRealism ink pen/ pattern drawing and its concept at <http://neopoprealismblackwhiteink.blogspot.com/> [<http://neopoprealismblackwhiteink.blogspot.com/>] . This drawing is meditative. When you draw repetitive patterns, you enter meditative state of mind, the highest state in which our mind can exist. It increase your learning and creative abilities.

January 4, 2003 Nadia Russ created a term to name her new and unique style - NeoPopRealism. In 2004, a few swindlers-craftsmen, who did not know that all Nadia Russ' achievements since early 90s were documented, decided to present themselves as the "creators" of this ink pen/ pattern drawing style. This

infamous and at the same time comedic story began in 2002, when Nadia Russ lived in Florida, renting from one of the shameless and hungry for \$ swindlers an apartment on the beach... The whole story about it and more about her dynamic life she tells in a book, in autobiography-nonfiction "**DECA-DaNCE** [<http://www.amazon.com/Deca-Dance-Swindlers-Coxcombs-Sexists-America/dp/0615655688>] ", ISBN: 978-0615655680 published in 2012 - www.neopoprealism.org [<http://www.neopoprealism.org/>]

In 2004, Nadia Russ created 10 NeoPopRealism canons for happier life.

NeoPopRealism philosophy for happier life:

1. Be beautiful;
2. Be creative & productive; never stop studying & learning;
3. Be peace-loving, positive-minded;
4. Do not accept communist or any other totalitarianism's philosophy;
5. Be free-minded, do the best you can to move the world to peace and harmony;
6. Be family oriented, self-disciplined;
7. Be free spirited. Follow your dreams, if they are not destructive, but constructive;
8. Believe in god. God is one, it is harmony and striving for perfection;
9. Be supportive to those who needs you, be generous;
10. Create your life as a great adventurous story.

About what the NeoPopRealism philosophy for happier life stands for.

To bring the peace to the earth, it is time to unite all the peace-loving people, to stop the use and production of the heavy military equipment and weapons of mass destruction, such as war ships, war planes, artillery, nuclear bombs, etc., in every part of the world, without any exception, once and forever.

It has to be an international law, according to which any person of any country, in any government, responsible for use (or attempt to use) the heavy military equipment in any part of the world to kill people, would be imprisoned for the rest of life without possibility of amnesty, as the mass murderer. All sales of the heavy military equipment worldwide should be stopped, as well as production of new military heavy equipment, as part of this future law.

To keep this planet eco-friendly and beautiful, and people happy, we have to say 'good bye' to some irresponsible boys' bloody toys. (08.08.2014)

About chess game:

Chess known as "the game of kings." It can raise your IQ. Because the brain works like a muscle, it needs exercise like any bicep or quad to be healthy - chess exercises both sides of the brain. Chess game greatly increases originality and creativity. It improves memory, increases problem-solving skills, improves reading skills, concentration. It grows dendrites. It develops parts of the brain, responsible for planning, judgment, and self-control.

Chess is a two-player strategy board game played on a chessboard, a square checkered gameboard with 64 squares arranged in an eight-by-eight grid. It is one of the world's most popular games, played by millions of people at home, clubs, online, by correspondence, and in tournaments.

Each player begins the game with sixteen pieces: one king, one queen, two rooks, two knights, two bishops, and eight pawns. Each of the six piece types moves differently. Pieces are used to attack and capture the opponent's pieces, with the objective to 'checkmate' the opponent's king by placing it under an inescapable threat of capture. In addition to checkmate, the game can be won by the voluntary resignation of the opponent, which typically occurs when too much material is lost, or if checkmate appears unavoidable. A game may also result in a draw in several ways, where neither player wins. The course of the game is divided into three phases: opening, middlegame, and endgame.

[http://2.bp.blogspot.com/-jtbah71qN8c/UMzol6RgsII/AAAAAAAAABv0/T3R_hXWA5SM/s1600/chess.jpg]

The history of chess spans some 1500 years. The earliest predecessors of the game originated in India, before the 6th century AD. From India, the game spread to Persia. When the Arabs conquered Persia, chess was taken up by the Muslim world and subsequently spread to Southern Europe. In Europe, chess evolved into roughly its current form in the 15th century. In the second half of the 19th century, modern chess tournament play began, and the first world Chess Championship was held in 1886. The 20th century saw great leaps forward in chess theory and the establishment of the World Chess Federation (FIDE). Developments in the 21st century include use of computers for analysis, which originated in the 1970s with the first programmed chess games on the market. Online gaming appeared in the mid-1990s.

A NOTE FOR ART TEACHERS

THERE IS NO SUCH THING AS "ZENTANGLE". IT IS JUST NEOPOPREALISM, MADE BY PEOPLE WITHOUT TALENT OR UNPROFESSIONALLY.

ALSO, ZENTANTANGLE IS A SO-CALLED METHOD OF SQUIISING MONEY FROM UNEDUCATED IN ARTS PEOPLE. SIMILAR TO SELLING THE PSYCHICK READINGS, FORTUNE-TELLING, SELLING VIAGRA, ETC, ETC. ALL THESE BRAIN-WASHING CAMPAIGNS ARE ORGANIZED BY SAME PEOPLE.

ONLY ABSOLUTELY UNEDUCATED IN ART PERSON CAN ADMIRE BY PRIMITIVE AND LOW ON ART QUALITIES SO-CALLED "ZENTANGLE". I WOULD CALL IT "ZEN-TRASH". AND I HAVE NO DOUBTS THAT ANY PROFESSIONAL ARTIST WHO RESPECTS SELF WILL AGREE WITH ME.

I REALLY FEEL SORRY THAT THESE SHAMELESS BUSINESS PEOPLE TARGETED AND USED FOR THEIR DIRTY PURPOSES SO FULL OF ARTISTIC QUALITIES NEOPOPREALISM. BECAUSE OF THIS, I'LL NEED LAUNDERED FROM THEIR DIRT UNTIL I AM ALIVE.

NeoPopRealism©1989-2015

Why Learning Who You Are Makes Life More Fun and Easy (NeoPopRealism Journal, October, 2014. NYC) Do we, the people, really know who we are, when it comes to our genes, blood types, other physical differences we born with? Probably not. However, this knowledge would help us to live more interesting lives, using our time and energy the right way. It would help us to choose the right careers and even may be the right love/ marriage partners....

A little bit more than one year ago, the NeoPopRealism creator Nadia Russ accidentally learned more about her blood type's characteristics. She has the phesus A-Negative (actually same with the Adolf Hitler, but they are so different! Check NeoPopRealism 10 Canons for Happier Life created by Nadia Russ in 2004).

This new knowledge opened her eyes on many interesting things. Perfectionist, she naturally was striving for the best in everything - in inventing new art style and creating her artwork, in trying to bring some positive changes in the human society and her own life. Sometimes, she was disappointed, frustrated, did not know whom to blame, because seemed she did everything the right way, but it was going not as she expected, people did not understand her.

Today, she is more relaxed and happy, and without those too high expectations, even still working on positive changes. Today, she is more calm.

So what changed? - you might ask. Nothing, but her perception of reality. Why? Because she learned something about herself that changed everything. She learned that she doesn't have the monkey's protein in her blood, while the majority of the people on this planet have the monkey's protein in their blood. You might ask: And why would THIS change her perception of reality? Because now, Nadia knows that those people won't be able to understand her one hundred percent. Now, she has lowered her expectations because these peoples are still in a process of the mental and cultural development to the level of the pure human, who actually she is, according to the scientific study and her blood type.

She has absolutely different ways of thinking and seeing things.

According to scientific study, the people who do not have the monkey's protein in their blood, are the pure humans and have the higher IQ. They are not a result of the evolution from the animal's world, as those who have the monkey's protein in their blood. Creating the NeoPopRealist Art style, Nadia was hopping to benefit the artistic and intellectual library of the human achievements. However, she saw indifference from the people who could not straighten their brains and learn the new thing. She could not understand what's on, is this so difficult to understand what she offers?

At the same time, she saw how the masses of peoples went for the primitive zen-doodling, the poor substitute of NeoPopRealist Art that uses the NeoPopRealist Art concept. Praising the tasteless drawings-doodling that have nothing in common with real Art, they are unable to catch the core idea of the NeoPopRealist Artwork and what makes NeoPopRealist Art the NeoPopRealist Art.

Only in 2013, Nadia Russ suddenly found the answers to many questions, then she learned who she is according to her blood type. The genes affect everything in our lives. And today, she is relaxed and do not expect too much from the masses, because as someone said: "Different strokes for different folks". She understood that NeoPopRealism Art is mostly for the pure humans, for the intellectual elite; and zen-doodling is for those, who have the monkey's protein in their blood, for the masses who are still in the developmental process.

Actually both blood types - Negative and Positive - can be found in the peoples of all nationalities and races, however, there is only about 15% of the peoples with the Negative rhesus on this planet, and only about 5% with the A-Negative.

Freedom, morality, and the human dignity of the individual consists precisely in this, that he does good not because he is forced to do so, but because he freely conceives it, wants it, and loves it. ~Mikhail Bakunin
